# QUALITY & CARE

### Washing (Tub)

The numbers in the tub indicate the maximum washing temperatures, which must not be exceeded. The bar below the tub requires a more (mechanical) gentle treatment (e.g. programme for delicate fabrics). It designates washing programmes which are suitable for easy-care and delicate garments. Textiles made of cotton or mixed fibres should be pulled into shape when still wet. We recommend that textiles with prints or embroideries should only be washed on the reverse at a maximum of 40 degrees in order not to impair the quality of the print or embroidery.

### Dry cleaning (Cleaning drum)

The letters are intended for the textile cleaner. They indicate the possible solvents. The bar below the circle requires cleaning under limited mechanical strain, with a limited amount of moisture and at a medium temperature. Textiles with prints or embroideries should not be dry cleaned.

### Ironing (Iron)

The dots indicate the temperature scale of the irons. Textiles with prints or embroideries should only be ironed on the reverse.

### Tumble drying (Tumble-drier)

The dots indicate the drying-grades of the tumble-drier. Textiles with transfer prints must not be tumble-dried.

### Bleaching (Triangle)

This symbol shows the textile cleaner whether the garment may be bleached or not.
